**Position:** Treated Water Distribution Operator: Progression Position, Entry Level to Level 2  
**Posting Date:** October 1, 2020  
**Closing Date:** October 21, 2020  
**Job Location:** Village Of Ryley

### Description:

The Highway 14 Regional Water Services Commission purchases treated water from EPCOR via Strathcona County and distributes it to its member and non-member municipalities throughout the service area. They include Strathcona County, Beaver County, Town of Tofield, Village of Ryley, Village of Holden, Town of Viking and Camrose County. These municipalities rely upon the Highway 14 Commission for the delivery of a safe and reliable supply of treated water. Emphasis is placed on safety for the work group and the public. The successful applicant will be enrolled in the Local Authorities Pension Plan and receive medical, dental and insurance benefits.

### Responsibilities:

Under the direction of the Operations Director the successful applicant will provide support in all aspects of operating a regional water system. Requirements will include the collection of routine water samples for bacteriological testing, perform system inspections, pipeline locations, meter installations, meter reading, maintain pump stations, transmission/distribution pipelines and truck fill facilities. The operator will also monitor flows and reservoir levels both on site and remotely through a computer based SCADA management system. The operator will also meet with new customers to take service applications, prepare detailed sketches, perform pipeline locates, coordinate new installations and pipeline repairs with the construction contractor. The operator must reside within close proximity to the water supply system and will be provided with a company vehicle during on call shifts. The successful candidate must be prepared to take "on call" shifts, be mechanically inclined for working with tools and equipment, confident with computers and plan reading, congenial in dealings with co-workers, customers and municipal representatives.

### Qualifications:

- Minimum: Grade 12 diploma allowing participation in the Alberta Environment Water Operator training program.
- Additional: Existing certification as a distribution water operator or technical training will be considered an asset.
- Organizational skills to plan and prioritize work to meet deadlines.
- Must demonstrate written and communication skills.
- Successful applicant will be required to complete a security clearance check, drug test and drivers abstract that is satisfactory to the Commission.
- Applicants must provide educational and employment history along with references.
- Must be in good physical condition to walk long distances, to lift heavy loads (20 kg) and perform physically demanding work.

### Compensation:

Base pay range is from \$30.60 to \$38.80 plus standby pay and overtime.

### Applications:

Please submit your application to the attention of:
