NOTICE

THE HIGHWAY 14 REGIONAL WATER SERVICES COMMISSION has had several engineering studies conducted in an effort to develop a rate model that reflects the full cost accounting of operating the Hwy 14 Regional Water System. The Commission owns and operates approximately 280 km of water mains and associated pumps, controls and reservoirs. This infrastructure has a limited lifespan. Replacement of this infrastructure must be planned to keep this system operational. With much consideration the Commission has approved a commodity rate increase under Bylaw 21-3 to take effect June 1, 2021. Increases will be noticed on the June 30 invoices. Changes to rates are as follows:

- ***Distribution Commodity Rate has been increased from \$3.755/m³ to \$4.515/m³.***
- ***Bulk Commodity Rate has been increased from \$3.505/m to \$3.815/m³.***
- ***Non-Member Commodity Rate has been removed and the Distribution Commodity Rate will apply.***
- ***Truck Fill Rate has been increased from \$5.293/m³ to \$5.993/m³.***

The Highway 14 Regional Water Services Commission can be contacted at 1-866-333-3791 during regular office hours from 8:30 am to 4:30 pm.
